

STATEMENT REGARDING THE ENGAGEMENT POLICY – TRESMARES PRIVATE EQUITY SGEIC AND TRESMARES DIRECT LENDING SGEIC

Statement regarding the Engagement Policy pursuant to Directive 2017/828/EU of the European Parliament and of the Council of 17 May 2017 amending Directive 2007/36/EC as regards the encouragement of long-term shareholder engagement (hereinafter, "the Directive").

In accordance with the provisions of the Directive and Article 67 bis of Law 22/2014, of 12 November, regulating venture capital entities, other closed-ended collective investment undertakings and the management companies of closed-ended collective investment undertakings, and amending Law 35/2003, of 4 November, on Collective Investment Institutions (hereinafter, the "LECREICC"), Management Companies of Closed-Ended Collective Investment Undertakings (hereinafter, the "SGEICs") must develop and make publicly available an engagement policy describing how they integrate shareholder engagement into their investment policy in the case of investments made on behalf of the Venture Capital Entities and Closed-Ended Collective Investment Undertakings they manage, in shares admitted to trading on a regulated market located or operating in a Member State. In turn, said article provides for the need to publish on an annual basis how their engagement policy has been applied, including a general description of their voting behaviour, an explanation of the most significant votes and, where applicable, of the use of proxy advisory services.

However, paragraph 6 of said article provides for the possibility that SGEICs may decide not to comply with these obligations, provided they publish a clear and reasoned explanation of the grounds for doing so.

With respect to TRESMARES PRIVATE EQUITY, S.G.E.I.C., S.A. and TRESMARES DIRECT LENDING, SGEIC, S.A. (hereinafter, collectively, "Tresmares"), the decision has been made not to develop such a policy nor to publish such a report, insofar as the vehicles managed by Tresmares do not make investments in or provide financing to companies admitted to trading on a regulated market located in a Member State of the European Union, in accordance with the provisions of the LECREICC.

The venture capital entities managed by Tresmares have as their principal purpose: (i) the temporary acquisition of shareholdings in the capital of companies of a non-real estate and non-financial nature which, at the time of the acquisition of the shareholding, are not listed on the main stock exchange market or on any other equivalent regulated market of the European Union or of other member countries of the Organisation for Economic Co-operation and Development; and (ii) the

development, processing and management of tailored financing products for certain small and medium-sized enterprises and funds, which are not listed on a regulated market, in the form of senior, junior and subordinated financing, convertible products and specialised hybrid products.

Therefore, taking the foregoing into account, the activity carried out by Tresmares does not fall within the objective of the regulations with respect to the situations it is intended to address.

There may be extraordinary circumstances in which the vehicles managed by Tresmares could have exposure to an entity listed on a regulated market, but this would be a temporary situation which would in no case represent a residual percentage of the shares or voting rights of said listed companies.

It should be noted that, insofar as the aforementioned Engagement Policy will not be developed, the previously mentioned annual report will not be submitted.
